Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.		
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).		
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? If "Yes," answer lines 3b and 3c below.		
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? If "Yes," describe in Part VI when and how the organization made the determination.		
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? If "Yes," explain in Part VI what controls the organization put in place to ensure such use.		
4a Was any supported organization not organized in the United States ("foreign supported organization")? If "Yes" and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.		
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.		
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.		
5a Did the organization add, substitute, or remove any supported organizations during the tax year? If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI , including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).		
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?		
c Substitutions only. Was the substitution the result of an event beyond the organization's control?		
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? If "Yes," provide detail in Part VI .		
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? If "Yes," complete Part I of Schedule L (Form 990).		
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described on line 7? If "Yes," complete Part I of Schedule L (Form 990).		
9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons, as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? If "Yes," provide detail in Part VI .		
b Did one or more disqualified persons (as defined on line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? If "Yes," provide detail in Part VI .		
c Did a disqualified person (as defined on line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? If "Yes," provide detail in Part VI .		
10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? If "Yes," answer line 10b below.		
b Did the organization have any excess business holdings in the tax year? (Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)		

Part IV Supporting Organizations (continued)

	Yes	No
11 Has the organization accepted a gift or contribution from any of the following persons?		
a A person who directly or indirectly controls, either alone or together with persons described on lines 11b and 11c below, the governing body of a supported organization?		
b A family member of a person described on line 11a above?		
c A 35% controlled entity of a person described on line 11a or 11b above? If "Yes" to line 11a, 11b, or 11c, provide detail in Part VI .		

Section B. Type I Supporting Organizations

	Yes	No
1 Did the governing body, members of the governing body, officers acting in their official capacity, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's officers, directors, or trustees at all times during the tax year? If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove officers, directors, or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).		
3 By reason of the relationship described on line 2, above, did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.		

Section E. Type III Functionally Integrated Supporting Organizations

1 Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (see instructions).		
a <input type="checkbox"/> The organization satisfied the Activities Test. Complete line 2 below.		
b <input type="checkbox"/> The organization is the parent of each of its supported organizations. Complete line 3 below.		
c <input type="checkbox"/> The organization supported a governmental entity. Describe in Part VI how you supported a governmental entity (see instructions).		
2 Activities Test. Answer lines 2a and 2b below.		
a Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? If "Yes," then in Part VI identify those supported organizations and explain how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities.		
b Did the activities described on line 2a, above, constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? If "Yes," explain in Part VI the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement.		
3 Parent of Supported Organizations. Answer lines 3a and 3b below.		
a Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? If "Yes" or "No," provide details in Part VI .		
b Did the organization exercise a substantial degree of direction over the policies, programs, and activities of each of its supported organizations? If "Yes," describe in Part VI the role played by the organization in this regard.

Part V, Line 4 - Intended Uses Of Endowment Fund

Endowment funds are designated for purposes that align within this organization's exempt purpose.

Part X - FASB ASC 740 Footnote

Northern Light Health, its hospitals, and certain other affiliates have been determined by the Internal Revenue Service to be tax-exempt charitable organizations as described in Section 501(c)(3) or 501(c)(2) of the Internal Revenue Code (the Code) and, accordingly, are exempt from federal income taxes on related income

Part XIII Supplemental Information *(continued)***Part X - FASB ASC 740 Footnote (continued)**

pursuant to Section 501(a) of the Code. Accordingly, no provision for federal income taxes has been recorded in the accompanying financial statements for these organizations.

Tax-exempt charitable organizations could be required to record an obligation for income taxes as the result of a tax position they have historically taken on various tax exposure items, including unrelated business income or tax status. Under guidance issued by FASB, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position. Estimated interest and penalties, if applicable, related to uncertain tax positions are included as a component of income tax expense. Northern Light Health has evaluated its tax position taken or expected to be taken on income tax returns and concluded the impact to be not material.

Certain of Northern Light Health's affiliates are taxable entities. Deferred taxes related to these entities are based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect in the years the differences are expected to reverse. The deferred tax assets and liabilities for these entities are not material.

Part V, Line 5 - Account Input from Person Who Represent the Community

Facility: Northern Light Acadia Hospital

The Maine Shared CHNA research team conducted a statewide qualitative assessment among stakeholders to identify and prioritize significant health issues in communities across the state. The assessment, coordinated with the Maine CDC, engaged public health expertise throughout the process. Community outreach was conducted between September 2021 and January 2022. All forms of engagement included public forums, community sponsored events, and oral surveys. The purpose of these outreach efforts was to gather feedback on data and to identify health priorities, community assets, and gaps in resources to be used in health improvement planning.

Virtual community forums with residents and service providers were held in the county in partnership with the Maine CDC to solicit input from individuals representing populations with health disparities including medically underserved, low-income, or minority populations. The following organizations attended the September 23, 2021, Penobscot Shared CHNA Community Engagement Forum and provided valuable feedback on the most recent Maine Shared CHNA.

Persons representing broad interests of the community who were consulted during the engagement process (the following list was extracted from the Penobscot County CHNA report, page 23): Bangor Public Health and Community Services, Center for Community Inclusion & Disability Studies, University of Maine, City of Bangor, Community Health Leadership Board, Community members, Downeast Public Health District, Eastern Maine Community College, Eastern Maine Development Corporation, Elliottsville Foundation, Inc., Health Access Network, Maine Department of Health and Human Services, Midcoast Public Health District, Millinocket Regional Hospital, Mobilize Katahdin, Millinocket Memorial Library, Northeastern Workforce Development Board, Northern Light Health,

New this cycle was an expanded effort to reach those who may experience systemic disadvantages and therefore experience a greater rate of health disparities. Two types of outreach were piloted in this effort.

One effort included nine community sponsored events hosted by organizations having statewide reach representing the following communities: Black or African Americans; people who are homeless or formerly homeless; older adults; people who are deaf or hard of hearing; people who define themselves or identify as lesbian, gay, bisexual, transgender, and queer and/or questioning (LGBTQ+); people who live with a disability; people with a mental health diagnosis; people with low income; and youth.

Another effort included conducting oral surveys in collaboration with eight ethnic-based community organizations' community health workers in order to better reach Maine's immigrant population that included: 1,000 surveys were conducted in either English (32%), Somali, (24%), Arabic (23%), French (8%), Spanish (5%), Lingala (3%), and other languages including Swahili, Maay Maay, Portuguese, Oromo, Eretria, Kirundi, and Amara. Part V, Line 11 - Explanation of Needs Not Addressed and Reasons Why

Facility: Northern Light Acadia Hospital

As a member of a partnering healthcare system in the Maine Shared Community Health Needs Assessment (Shared CHNA) effort, Northern Light Health's Community Health Council recognized the value, reach, and influence of aligned engagement efforts with a shared purpose. Review of the county CHNA forum priority voting revealed that mental health, social determinants of health, and substance use were among the top four priorities in almost every county CHNA forum. These three priority areas were presented and adopted by our hospital's governing board as shared priorities where Northern Light Health member organizations would engage in common strategy to achieve greater statewide effect.

Northern Light Acadia Hospital's community health strategy was developed to include our systemwide shared priority areas of work reflecting upon the quantitative health profile indicators and qualitative prioritization derived from the Shared CHNA's community engagement process. We also considered local readiness and capacity to address these needs in partnership with our local communities. The following provides an update on the actions taken on the three priority areas in fiscal year 2023 (FY23):

Mental Health

Actions taken by Northern Light Acadia Hospital to address this priority in FY23:

aftermath of a traumatic experience and has proven to be effective when someone is experiencing a mental health crisis at any time. PFA shines a light on the impact of collective trauma, builds resiliency, and assists in self-care action plans by incorporating five evidence-based principles: safety, calming, connectedness, self and community reliance, and hope.

Certified Acadia Hospital staff then engaged schools and/or youth serving organizations to educate and empower others to respond to mental and behavioral health needs of children using the PFA training model. Attendees received training in eight core elements; engagement, safety, stabilization, information gathering, practical assistance, connection to social supports, information on coping, and connecting with collaborative services. Acadia Hospital conducted 12 PFA training sessions with 336 individuals trained. Northern Light Health's systemwide collective impact of our shared objective to increase the number of individuals trained to support the mental health needs of children and youth resulted in 35 youth mental health training sessions with 584 individuals trained.

Social Determinants of Health

Actions taken by Northern Light Acadia Hospital to address this priority in FY23: FindHelp.org is the nation's leading social care network, making it easier to connect patients and their families with free or reduced-cost programs from local partners and national support services with dignity and ease, and is one component of Northern Light Health's response to need in the communities we serve. Northern Light findhelp will allow users to directly communicate with referral partners to coordinate care of our patients.

Part V, Line 11 - Explanation of Needs Not Addressed and Reasons Why (continued)

Northern Light Acadia Hospital engaged in meaningful, trusted community partnerships to reach priority populations with equitable access to community resources and social supports and connect individuals with community resources they need to improve their health and well-being through the findhelp.org platform. Acadia Hospital participated on a monthly systemwide workgroup focused on community engagement efforts to educate community partners on the availability and uses of findhelp.org. Community partners were provided with assistance in adding their program information to the platform directory and with activating the ability to receive referrals or requests for information through the platform. Acadia Hospital engaged three community partners who added nine programs to the findhelp directory. Northern Light Health's systemwide collective impact of our shared objective to increase community partner engagement with FindHelp.org resulted in 28 programs added to findhelp and 89 programs that increased engagement with findhelp.

Substance Use

Actions taken by Northern Light Acadia Hospital to address this priority in FY23: In collaboration with other Northern Light Health member organizations and community-based organizations, trained Acadia Hospital staff representing pharmacy and community health departments, worked diligently to improve processes and partnerships to reduce barriers and provide equitable access to state-sponsored Naloxone (Narcan) kits for priority populations.

Northern Light Acadia Hospital participated in the Maine Naloxone Distribution Initiative which provides state-purchased naloxone to community organizations, clinical sites, and end-users throughout the State of Maine to distribute free of charge. Through a collaboration with Bangor Public Health & Community Services,

Acadia Hospital provided education on the use of these naloxone kits to end-users to facilitate the reversal of private overdoses in the community. Acadia Hospital distributed 302 state-sponsored naloxone kits. Northern Light Health's systemwide collective impact of our shared objective to improve distribution and preventive access to state sponsored naloxone kits systemwide resulted in 1,453 naloxone kits distributed throughout Northern Light Health's service area.

Additional information related to actions taken by Acadia Hospital on the above priorities can be found in their FY23 Progress Report to Our Community at <https://northernlighthealth.org/Community-Health-Needs-Assessment/2022-Community-Health-Strategy> .

Acadia Hospital considered all priorities identified in the Shared CHNA, as well as other sources, through an extensive review process. Access to care was not selected as an independent priority of focus as many of our efforts identified in our strategy are connected to access issues. In addition, our hospital has current initiatives that are ongoing and part of our continual mission to improve access to care such as provider recruitment, engagement of navigators or the equivalent, and other efforts that support this priority

- 1 Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8, and 9b.
- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (for example, open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Part I, Line 6a - Related Organization Community Benefit Report

Northern Light Acadia Hospital is a member of Northern Light Health (EIN = Eastern Maine Health Systems DBA NLH 01-0527066). Our Community Benefit Report is included in the following documents annually:

- Northern Light Health's Annual Report; a sub-section in the report

<https://northernlighthealth.org/About-Us>

- Northern Light Health Community Benefit Reports are available at:

<https://northernlighthealth.org/Community-Health-Needs-Assessment/Community-Benefit-Reports>

In FY23, Northern Light Health members incorporated a methodology for capturing indirect costs which comply with community benefit reporting requirements.

Part I, Line 7 - Explanation of Costing Methodology

Ratio of Patient Care Cost-to-Charges is used in calculations.

Part III, Line 2 - Methodology Used To Estimate Bad Debt Expense

The costing methodology used to determine the amount is cost to charge ratio.

Part III, Line 4 - Bad Debt Expense

Patient and trade accounts receivable are stated at the amount management expects to collect from outstanding balances. See Footnote 2 of the attached financial statements, page 16 to 19 - Patient Service Revenue and Accounts Receivable section.

Part VI Supplemental Information

Provide the following information.

- 1 Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8, and 9b.
- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.

- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Part III, Line 8 - Explanation Of Shortfall As Community Benefit

Medicare losses should be treated as a community benefit because the losses are incurred in performing an important public service, and Maine hospitals experience one of the lowest Medicare reimbursement rates in the country.

Part III, Line 9b - Provisions On Collection Practices For Qualified Patients

All account guarantors who express an inability to pay inpatient and outpatient services will be screened for eligibility for charity care using an application and guidelines established by Northern Light Acadia Hospital. An account may be reconsidered for charity care at any time when new information is available about a patients inability to pay.

Part VI, Line 3 - Patient Education of Eligibility for Assistance

Northern Light Health Financial Counselors screen patients for federal, state or government programs and brochures are displayed at all Northern Light locations. Financial Assistance is widely publicized within the community by the following methods:

- Offered by receiving a conspicuous written notice on their billing statements

- Listed on the Northern Light Health web portal

www.northernlighthealth.org/billing

- Posters are displayed in public locations in each hospital facility

Part VI Supplemental Information

Part VI, Line 3 - Patient Education of Eligibility for Assistance (continued)

- Community posters are displayed outside of the organization (Food Cupboards, Libraries, Auditoriums, Churches, Banks)
- Packets are provided at all check in locations which include an application, instructions, and a Financial Assistance Policy (FAP) Plain Language Summary

Part VI, Line 4 - Community Information

Located in Bangor, Maine, Northern Light Acadia Hospital has a service area comprised of both primary and secondary service areas, together referred to as the total service area. Total service areas (TSA's) are developed by the Northern Light Health Planning department based on neighboring zip codes from which a majority of a hospital's inpatient admissions originate. TSA's can sometimes overlap due to hospital locations or because of the specialty services provided by the hospitals. Northern Light Acadia Hospital patients are community members from the following counties; Androscoggin, Aroostook, Cumberland, Franklin, Hancock, Kennebec, Knox, Lincoln, Oxford, Penobscot, Piscataquis, Sagadahoc, Somerset, Waldo, and Washington.

Penobscot County's race/ethnicity and selected demographics are provided below for Acadia Hospital based on the hospital's physical location.

Penobscot County - Race/Ethnicity: American Indian/Alaskan Native 1.3% (1,910),

Annual Report 2023

HOW ARE YOU?

How are you is a simple question that we ask many times throughout the day, but it's also a question that goes beyond conversation, an expression of genuine care and interest in the wellbeing of others. It's a foundation of the deeper, more meaningful relationships we build with our employees, patients, community members, and others. We hope this annual report illustrates how this question, while at the heart of our character, is one of the ways we guide our patients and their families through the healthcare experience.

This year, we highlight ways our incredible employees and community partners work together to ensure we are making healthcare work for all people in Maine. From a nurse who provides healing care in the hospital and nourishing food in a restaurant, to helping community members combat opioid use disorder with Narcan training.

Our commitment extends well beyond the walls of our facilities; we are training

community organizations in psychological first aid and are collaborating with our

local communities to promote health education and help create a healthier Maine. We extend our gratitude to our dedicated staff and community partners, and to the people of Maine who place their trust in us. We hope you take a moment to ask, "How are you?" and see how incorporating this simple but meaningful question into your daily interactions can positively affect our relationships and create meaningful connections.

We hope you enjoy the 2023 Annual Report.

GOING TO SAVE A LIFE?

Northern Light Health's Narcan Program: Saving Lives in Maine

Andrew Mitchell found himself in a situation he never expected. He was outside a restaurant in Bangor one August afternoon in 2022 when a life changing experience convinced him of the importance of the overdose-reversing medication, Narcan.

Mitchell, who received a Narcan kit at the Blue Hill Fair, was out with a friend

when a woman across the street urgently called out that a man was overdosing. Quickly, Mitchell rushed to his truck, grabbed the Narcan kit, and administered the life-saving drug to the unconscious man, whose lips had turned blue. Thanks to his timely intervention, the man began to regain consciousness.

Mitchell received his free Narcan kit from Northern Light Blue Hill Hospital, which has been at the forefront of addressing Maine's opioid epidemic. Employees handed out these kits to the public at the Blue Hill Fair in 2022 and 2023. Mitchell shares, "I had no medical training at all, and if I can use Narcan, anyone else can use it too. It's straightforward," he shares.

Northern Light Health's efforts extend beyond Narcan distribution to individuals. Hospitals across the system are engaging the community in a new and meaningful way. Northern Light Inland Hospital in Waterville and Northern Light Sebasticook Valley Hospital in Pittsfield provide training to community organizations on the use of Narcan. The hospitals' training programs are part of a three-year federal grant program to reduce overdose deaths in Maine.

Hanna Bouchard, a community health outreach coordinator with both hospitals, plays a vital role in this program. Her experience as an emergency medical technician, coupled with her dedication to the cause has made her a key figure in providing Narcan training to community partners, including Kennebec Valley Community College in Fairfield. "This program is not just about teaching people how to use Narcan; it's about giving them the knowledge and tools to save lives," shares Bouchard.

In the battle against opioid overdoses, data tells a compelling story. Maine

Form 990, Part III, Line 4d - Other Program Services Description

experienced more than 700 overdose deaths in 2022, and while the numbers are alarming, Narcan is making a difference. Of the 9,394 reported non-fatal overdoses, 2,200 were reversed thanks to community members carrying Narcan. Now with Food and Drug Administration approval, this life-saving medication is available over the counter.

Across Maine, the opioid crisis remains a significant challenge. These initiatives, whether distributing Narcan kits at the Blue Hill Fair or providing community trainings, are crucial steps towards reducing drug overdose deaths. These programs serve as beacons of hope, reminding us that every life is worth saving, and every intervention counts.

A Vital Connection

Are you monitoring your health?

Northern Light Home Care & Hospice is one of the first home healthcare agencies to endorse and promote telehealth for patients who qualify. Through LiveConnected, Northern Light's telehealth program, monitors can be installed in a patient's home. Our nurses train patients on how to read and record the information to monitor their condition, and the machine does the rest! More than 630 Mainers statewide use LiveConnected, including those who are not patients of Home Care & Hospice.

The service uses monitoring equipment to provide daily readings of vital signs to registered nurses. The nurses work with the patient and their physician to maintain and adjust medications from the convenience of home. Each day at a pre-determined time, the machine guides the patient through the steps to monitor their health.

Northern Light Home Care & Hospice uses a team approach to deliver care, educate our patients, and to better manage conditions like chronic heart and lung diseases. Often, managing chronic health conditions means frequent trips to the doctor or hospital to monitor vital signs. Using telemonitoring and offering care, such as physical therapy, occupational therapy, and speech language pathology to patients at home eliminates the stress of frequent trips and difficult access to transportation.

Each Northern Light Home Care & Hospice patient receives a customized care plan that includes clinical home visits, telehealth monitoring, and education designed for the individual, allowing patients to manage their care from the comfort of home.

Transforming Lives: Francis Warde Home

For decades, Portland has been a destination for people seeking asylum; leaving their home countries, seeking safety and protection in a new place to call home. Sometimes, there are cracks in the social safety net for this vulnerable population, and some of the most vulnerable are pregnant women.

One woman, who came to Northern Light Mercy Hospital on a cold rainy day in June, was five months pregnant, without shelter, and in dire need of care. Melissa Skahan,

Name of the organization	Acadia Hospital, Corp Northern Light Acadia Hospital	Employer identification number	01-0459837
--------------------------	---	--------------------------------	------------

Form 990, Part III, Line 4d - Other Program Services Description

vice president of Mission Integration at Mercy, recounts her story, "This woman was ill, had no home, and a discharge plan would potentially put her back out on the street or into another short-term shelter."

Thankfully, Skahan was already working on a solution. Mercy Hospital had recently teamed up with the non-profit In Her Presence (IHP), to start a new, two-generational program for pregnant women who are seeking asylum. The new program would open soon, in the former Francis Warde Convent, a residence once owned by the Sisters of Mercy of the Americas and named after one of the original Sisters of Mercy.

The Francis Warde Home was nearly ready to open, so instead of sending this pregnant woman back into uncertainty, hospital staff stepped in. Within 48 hours, they made a crucial decision that would change her life. Skahan adds, "Our staff kept her here, and the program launch was timed so that we were able to move her quickly into Francis Warde."

The Francis Warde program, as it is commonly referred to, ensures that vulnerable women in need of shelter, basic needs, and healthcare receive support. Overseeing the day-to-day operations of the Francis Warde program is Claudette Ndayininahaze, the co-founder and executive director of IHP. Ndayininahaze emphasizes, "We are just beginning to understand how to see the whole person and serve the whole person. The IHP approach is creating long-term community and lifelong learners who give back. We need to integrate culture and ensure a true balance of power so that women from all over the world feel empowered to shape their healthcare."

Name of the organization	Acadia Hospital, Corp Northern Light Acadia Hospital	Employer identification number 01-0459837
--------------------------	---	--

Form 990, Part III, Line 4d - Other Program Services Description

The program goes beyond providing shelter and healthcare. It extends to offering educational opportunities, including English language classes and workforce training at Northern Light Mercy Hospital. The women who benefit from the program go through a remarkable transformation.

In Skahan's words, "It's transformative. I've seen people who have been in the program for a few months, and they look like different people than when you first meet them because their basic needs are met, and they are constantly progressing and developing."

The Francis Warde Home empowers those who have experienced hardship and displacement to influence their interactions with healthcare. The model reflects the specific needs of immigrant women and their children across the continuum of care.

Through this program, Mercy Hospital, in partnership with IHP, is creating a healthier, more inclusive society where vulnerable individuals can thrive. Other collaborating agencies in this endeavor include Community Housing of Maine, JTG Foundation, Sisters of Mercy of the Americas, and the State of Maine.

Our Climate Health Pledge**How can we Improve our Planet's Health?**

We know that climate change can translate into poorer health outcomes for people across the planet and right here in Maine. To create a healthier environment for everyone, Northern Light Health has pledged to reduce our greenhouse gas emissions by 50 percent by 2030, and to achieve net zero emissions by 2050. In 2021, we began to gather data on things like direct emissions related to our use of heating fuels,

Name of the organization	Acadia Hospital, Corp Northern Light Acadia Hospital	Employer identification number	01-0459837

Form 990, Part III, Line 4d - Other Program Services Description

vehicles, and even anesthetic gases.

We also looked at indirect emissions from our electricity usage. We've converted to electric vehicles, built more energy efficient hospitals, and began outsourcing our electricity from more renewable sources. In year one of our pledge, we've already reduced our greenhouse gas emissions by more than ten percent! We know there is a long way to go, but we're pleased that we are off to such a positive start!

We have some exciting new projects planned for 2024 including improvements to our supply chain, a food waste program, and a new podcast series on climate sustainability.

SHARING YOUR CULTURE?

A Journey of Nursing and Nourishing

It's just before 9 am when Hope Moneke and one of her daughters arrive in Veazie, a suburb of Bangor, to start cooking for their restaurant where they serve delicious African cuisine each Friday through a shared kitchen arrangement. Moneke and her family made the life-changing decision to move to Maine a decade ago, seeking new opportunities and a better life. With an innate desire to help people, Moneke went to school and became a nurse, something that was not easily accessible to her in Nigeria.

Now, she works on a busy cardiac floor at Northern Light Eastern Maine Medical Center. Little did Moneke know that her journey would lead to the creation of a unique blend of cultures, where her roles as a nurse and a chef would intertwine to bring joy, comfort, and a taste of home to her new community.

Like many new Mainers, Moneke and her family missed the food and flavors of home. This became an opportunity for Moneke to pursue her other great passion: cooking. Growing up in Nigeria, she had honed her culinary skills, and now she had the chance to share her culture through food. Moneke's flexible nursing schedule allows her to dedicate time to both her patients and her restaurant. She works three days a week at the medical center, where she finds immense fulfillment caring for patients. This role as a nurse is not just a job for Moneke; it's a calling.

Moneke's face lights up when she describes the joy she finds in patient care and how her culinary artistry is an extension of her nurturing spirit as a nurse. "I feel a deep sense of accomplishment in caring for my patients, and then being able to share my culture with this community through food," says Moneke.

For Moneke, both her roles, nurse, and chef, are intertwined. She is a healer in both settings and finds great satisfaction in serving and making a difference in people's lives.

Her gift is not just about the food she serves; it's about the connections she creates and the joy she brings to those whose lives she touches. Her story is a reminder that no matter where we come from, we all share the common human experience of wanting to make a difference and finding fulfillment on our journeys. Moneke has

achieved just that, with a warm smile and a plate full of delicious African cuisine.

"People come here, and they tell me my food is delicious, and that makes me very happy," says Moneke. "I feel so proud of myself that I accomplished this, and I get to make a difference in people's lives, that is the most important thing."

Bringing Education to Rural Communities

Rural hospitals play a vital role in providing essential medical services to underserved communities. However, these hospitals often face significant challenges in recruiting and retaining nurses. To understand the transformative power of innovative programs designed to attract and keep nursing talent in rural areas, look no further than the inspiring story of Danielle Craig, RN, Northern Light Mayo Hospital.

Craig represents the heart and soul of rural healthcare in Maine. Her remarkable journey into the nursing profession and her unwavering commitment to serving her community highlight the positive effects of programs designed to recruit and retain nurses to rural Maine.

As the mother of six children, Craig faced a unique set of challenges when considering a career in nursing. The need to balance her family's well-being with her professional aspirations was a significant concern. Rural living often comes with lengthy commutes to educational institutions and healthcare facilities, making it

difficult for individuals like Craig, with a growing family, to pursue their dreams.

Craig's journey took a fateful turn when she stumbled upon an ad in the Piscataquis Observer for a nursing program in Dover-Foxcroft and a distance learning program offered by Eastern Maine Community College (EMCC) in Bangor, a unique program bringing education closer to home for rural residents. EMCC held the classes at the Piscataquis County Technical Center in Dover-Foxcroft. Craig recalls, "I had children at home, so less time on the road meant more time with them outside of class and less need for childcare."

The program's innovative approach included video conferences, allowing students to access the same instructors and the same classes available on campus, and dedicated in-classroom support from nursing professionals like Nikki Chadwick, RN, MSN, CPHQ, vice president of Quality and Education, Northern Light Mayo Hospital, who played an integral role in Craig's journey. Craig recalls, "We had Nikki in the classroom to help support us, answer any questions we had, and she took us to our clinicals right in town at Mayo Hospital."

For Craig, this educational opportunity was not only life-changing but also transformative for her family. She emphasizes, "Before I became a nurse, we were a one-income family with six children. By providing access to education to rural communities, you're bringing those families up, and that will bring the entire community up."

Are you inspired?

Art inspires imagination and wonder. It takes us to new places and makes us feel curious and excited. The Umbrella Sky Project, sponsored by Northern Light Eastern Maine Medical Center, inspired by Mary Poppins, is an outdoor art exhibit installed around the world that took over downtown Bangor in summer 2023. The display of whimsy, exuberance, energy, and maybe a little bit of protection from the rain and sun came to Cross Street, the corridor between Main Street and Columbia Street. If you missed it, don't worry; the installation returns in summer 2024. Be sure to come visit and when we ask, "How are you?" we hope you will reply, "Practically perfect in every way!"

Assembling the Puzzle:

Integrated Women's Health

In today's fast-paced world, women often find themselves juggling a multitude of responsibilities, from caring for family to excelling in the workplace. Amidst this balancing act, the importance of their own health often takes a back seat.

Fortunately, healthcare providers like Behnoosh Dashti, MD and Danielle Agrella, WHNP, of Northern Light Women's Health, recognize this challenge and are offering a holistic approach to women's health.

The concept centers around an integrated care setting, one that combines primary care and obstetrics/gynecology services in a seamless and convenient way: essential healthcare components under one roof, delivering a unique and cohesive healthcare experience.

Dr. Dashti compares it to assembling pieces of a puzzle. "We make sure that all pieces are beside each other in the same frame. I think the clinic could be seen as a frame that brings all the pieces of the puzzle of healthcare together for women all in the same place."

The Women's Health Center is conveniently located within Northern Light AR Gould Hospital. Dr. Dashti points out, "If they need blood tests or imaging, we can arrange that at the hospital, in some cases even on the same day." This minimizes the need for patients to travel for different tests and procedures, making care accessible and efficient.

The advantages are even more apparent when considering the rural setting of Maine. "Harsh winter weather can hinder travel. Patients no longer need to brave challenging conditions to access healthcare services scattered across town. Instead, they can find the care they need all in one place," says Agrella.

This care model goes beyond just providing healthcare services; it empowers women to make themselves a priority. It serves as a reminder to all to place their health first so that they are better equipped to face the demands of life, for themselves and for those they love. Highlighting the importance of patient-centered care and the profound effect it can have on individual lives and the community as a whole, the collaborative spirit of these providers sets a new standard for healthcare delivery in their community, ensuring that individuals receive the care they need and deserve.

Self-scheduling your Mammogram

Are you taking charge of your schedule?

Breast cancer is the second leading cause of cancer death in women. When detected early, 98 percent of patients survive. Breast cancer can be detected in a mammogram up to three years before patients can feel any changes. Screening mammograms, starting at age 40, are a crucial part of breast cancer prevention and early detection, and online self-scheduling makes it easier than ever to make sure you're up to date.

Available 24 hours a day, seven days a week, you can schedule your screening mammogram whenever it's convenient for you. Since beginning in June of 2022, more than 2,600 people have self-scheduled their mammogram at a Northern Light Health hospital.

Visit NorthernLightHealth.org/ScheduleAMammogram to schedule your screening mammogram today.

Psychological First Aid Training: A Resource for our Communities

It's a warm morning in August and as the sun rises over the lake at Camp Jordan in Ellsworth; campers and counselors begin their day with a quick swim. While memories of summer camp can be some of the best, it's important to be prepared if a child needs extra support. Children are facing an increasing amount of stress and emotional challenges; providing psychological first aid (PFA) training is one way we're helping community organizations in our region prepare to provide support.

Northern Light Acadia Hospital, in collaboration with other Northern Light Health members, provides training sessions to community partners including camp counselors, hospitals, and local schools.

Jennifer Laferte-Carlson, community health manager, Northern Light Acadia Hospital, together with a team of colleagues offer the training at no cost to organizations and leaders throughout Maine.

"This training allows there to be a bridge to keep people safe until they can be connected with resources," says Laferte-Carlson. "Training includes providing skills to identify and respond to those who have experienced trauma, being able to connect those individuals to resources and provide them with skills for self-care."

Among the counselors to receive training at Camp Jordan in Ellsworth was Blair Hudson, the arts and culture director at the camp. Hudson, who is in her seventh year as a camp counselor, says the training has allowed her to be more proactive in identifying early signs of emotional distress in campers. The newfound skills help her create a safer and more supportive environment for the kids and teens under her care.

"I had never had any type of training in mental health or psychological first aid, so this was a great addition to my skill set," says Hudson. "I came out of the training with a lot more confidence to handle certain situations on my own, and I've been able to use it on a couple occasions over the course of the summer, specifically with children having panic attacks or experiencing other signs of trauma."

"Now more than ever, this training is essential for members of our communities to be equipped with the skills to recognize and address emotional distress," adds Laferte-Carlson.

In a time of crisis, PFA training empowers community members to feel confident and capable in supporting others emotional well-being. It plays a significant role in reducing the stigma around seeking mental health support and enabling early intervention.

For more information about psychological first aid training call the Northern Light Acadia Hospital Behavioral Health Resource Center at 207.973.6100.

XII. action concerning the Corporation's participation in key strategic affiliations with third parties not affiliated with NLH; and

XIII. dissolution of the Corporation.

Form 990, Part VI, Line 11b - Form 990 Review Process

Form 990 is reviewed by the VP of Finance of Northern Light Acadia Hospital. It is also provided to each board member either electronically or in hard copy with an opportunity to ask questions prior to filing with the IRS.

Form 990, Part VI, Line 12c - Explanation of Monitoring and Enforcement of Conflicts

The organization requests updates of potential conflicts and relationships from the officers and Board members on an annual basis. The request requires disclosure of all business relationships, board memberships, and family relationships. A database is maintained that is compared to payroll records and the accounts payable vendor list to identify any potential conflicts of interest. Transactions are reviewed for reasonableness as an arm's length transaction.

The first agenda item for board meetings and board committee meetings is for members to declare any conflict of interest with upcoming agenda items or deliberations. At any point when consideration is being given to purchase/contract with a party in interest, the member with the conflict is either excused from the discussion and consideration process or abstains from voting on the matter.

Form 990, Part VI, Line 15a - Compensation Review & Approval Process - CEO & Top Management

The SVP, President of Northern Light Acadia Hospital and the system Chief Executive Officer (CEO) who serves on the board ex-officio are employed by the system parent, Eastern Maine Healthcare Systems d/b/a Northern Light Health (NLH).

The NLH Executive Performance Management Committee (the Committee) is responsible to monitor and evaluate the performance of the NLH CEO. It shall have authority to set the compensation of the NLH CEO, and to review the recommendations of the NLH CEO with respect to the compensation of the Presidents of the Member Organizations and other key management personnel. The Committee is comprised entirely of independent Directors per NLH bylaws.

Process:

The Committee meets regularly throughout the fiscal year at the discretion of the Committee chair as well as on call of the Chair of the NLH board. In carrying out its duties pursuant to the Bylaws, the Committee:

- Assures that the executive compensation program is administered in a manner consistent with the NLH executive compensation philosophy.
- Reviews and updates the NLH executive compensation philosophy which serves as the foundation on which all current and future executive compensation decisions are made.
- Assures that value of compensation provided by NLH does not exceed the value of

services provided by the executive.

-Reviews annual incentive compensation criteria for eligible executives, as defined by the NLH CEO.

-Reviews periodic compensation survey information and provides expert input to proposed changes to the executive compensation program.

-Assures that a formal and timely performance management system is in place for executives.

-Reviews incentive compensation criteria scoring and associated pay schedules for officers and key employees.

-Provides any public statements regarding executive compensation practices at NLH deemed appropriate.

-Maintains minutes of the meetings and communicates actions to the NLH Board of Directors.

To accomplish this, the committee uses an external consultant with access to comparative data from independent sources and include national as well as regional data points. The NLH CEO reviews all direct report compensation actions with the committee. In addition, the NLH CEO ensures that any subsidiary policies and practices governing executive compensation are consistent with the committee's philosophy and practices statement.

Form 990, Part VI, Line 15b - Compensation Review & Approval Process - Officers & Key Employees

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Eastern Maine Healthcare Systems d/b/a Northern Light Health
Brewer, Maine

Opinion

We have audited the accompanying consolidated financial statements of Eastern Maine Healthcare Systems d/b/a Northern Light Health (Northern Light Health), which comprise the consolidated balance sheets as of September 30, 2023 and 2022, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements (collectively, the “financial statements”).

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Northern Light Health as of September 30, 2023, and 2022, and the results of their operations, changes in their net assets, and their cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with U.S. generally accepted auditing standards (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Northern Light Health and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. GAAP; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Northern Light Health’s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material

Board of Directors
Eastern Maine Healthcare Systems d/b/a Northern Light Health
Brewer, Maine

if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Northern Light Health's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Northern Light Health's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary consolidating statements of operations are presented for purposes of additional analysis rather than to present the results of operations of the individual entities, and are not a required part of the financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. In our opinion, the consolidating information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

1. Organization and Business

Eastern Maine Healthcare Systems (EMHS) d/b/a Northern Light Health is the parent company in an integrated healthcare delivery system. Northern Light Health controls its subsidiaries by means of stock ownership, corporate membership, or membership interests. Northern Light Health and its subsidiaries provide a broad range of healthcare and related services throughout Maine.

The primary function of Northern Light Health is to provide overall coordination and direction for the activities of the following corporations. Each affiliated organization is a tax-exempt charitable organization, unless otherwise noted.

Acadia Hospital, Corp. d/b/a Northern Light Acadia Hospital — Northern Light Acadia Hospital (Acadia) operates a 100-bed acute care psychiatric hospital located in Bangor, Maine and provides outpatient mental health services. Acadia also provides mental health services through the use of tele-psychiatry and in-person care to 43 Maine hospital emergency departments. Acadia is the sole corporate member of Acadia Healthcare, Inc. d/b/a Northern Light Acadia Healthcare. Northern Light Acadia Healthcare provides an alcohol and drug treatment program, adult and children's case management services, school-based services, employee assistance programs, mental health services integrated within primary care practices, and other mental health community services.

On November 9, 2021, Acadia received approval for a \$34,700,000 Certificate of Need (CON) from the State of Maine Department of Health and Human Services (DHHS) to construct a 50 single occupancy room facility and to renovate 50 existing rooms. On September 29, 2022, DHHS approved a revised capital cost of \$52,700,000. Construction is expected to be completed by January 2024.

Affiliated Healthcare Systems (AHS) — AHS is a taxable holding company. AHS has several subsidiaries and is a member in several joint venture limited liability companies.

The following are subsidiaries of AHS:

Affiliated Laboratory, Inc. d/b/a Northern Light Laboratory — Northern Light Laboratory provides medical laboratory services to various Northern Light Health companies, physicians, and many unaffiliated healthcare clients in Northern New England. Northern Light Laboratory operates its core medical laboratory in Bangor and has various drawing stations throughout the State. 2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements (the financial statements) include the accounts of Northern Light Health and its controlled affiliates (hereinafter referred to as Northern Light Health). The financial statements include 100% of the assets and liabilities of majority-owned subsidiaries. Material intercompany accounts and transactions among the affiliated organizations have been eliminated in preparing the financial statements.

The financial statements have been prepared on the accrual basis of accounting and are presented in conformity with U.S. generally accepted accounting principles (U.S. GAAP) consistent with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 954, *Health Care Entities*, and other pronouncements applicable to healthcare organizations.

For purposes of display, transactions deemed by management to be ongoing and central to the provision of healthcare services are reported as revenue and expenses. Peripheral or incidental transactions are reported as other gains and losses.

Northern Light Health reports its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of Northern Light Health. These net assets may be used at the discretion of Northern Light Health's management and the Board of Directors (Board).

Net assets with donor restrictions: Net assets that are subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of Northern Light Health or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of operations and the statement of changes in net assets.

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. Significant estimates are made in the areas of patient accounts receivable, the valuation of investments and acquisitions, the determination of impairment of long-lived assets, self-insurance reserves, accrued retirement benefits, liabilities for contractual arrangements, and amounts receivable and payable under reimbursement regulations.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with a maturity of three months or less at the date of purchase, excluding amounts classified as assets whose use is limited or restricted.

Northern Light Health maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. Northern Light Health has not experienced any losses on such accounts. Northern Light Health believes it is not exposed to any significant credit risk on cash.

Investments and Investment Income

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value based on quoted market prices. Equity investments that do not have readily determinable fair values can be carried at cost, less impairment, adjusted for observable events that provide evidence of fair value. Realized gains or losses on the sale of investments are determined by use of average cost. Realized and unrealized gains and losses on investments are reported as other gains (losses).

The recorded value of investments in hedge funds and limited partnerships is based on fair value as estimated by management using information provided by external investment managers. For investments in investment companies for which the fair value is not readily determinable, Northern Light Health utilized the Net Asset Value (NAV) reported by each of the underlying funds as a practical expedient to estimate the value of the investment for each of these funds. Management believes that these valuations are a reasonable estimate of fair value as of September 30, 2023 and 2022, but are subject to uncertainty and, therefore, may differ from the value that would have been used had a market for the investments existed. Such differences could be material. Certain of the hedge fund and limited partnership investments have restrictions on the withdrawal of the funds (see Note 14).

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Consequently, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated balance sheets and statements of operations and changes in net assets.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Several Northern Light Health organizations own interests in joint venture entities. Ownership interests between 20% and 50% in a joint venture are accounted for by using the equity method of accounting and included in intangible and other assets. Using the equity method, the investment is increased by Northern Light Health's share of the entity's income and additional investments. The investment is decreased by Northern Light Health's share of the entity's losses and distributions.

Borrowing Collateralized by Patient Accounts Receivable

During 2022, Northern Light Health entered into a borrowing agreement collateralized by patient accounts receivable with a third party. Eligible patients can elect an arrangement with the third party or pay their balance in full. Northern Light Health receives payment for the account, less a discount rate of 9.75%. If the patient loan balance to the third party becomes 60 days past due or there is a change in patient status, as defined by the borrowing agreement, Northern Light Health is required to repay the outstanding balance. Northern Light Health had advances under this arrangement of \$7,770,000, and \$8,374,000 at September 30, 2023 and 2022, respectively, collateralized by patient accounts receivable. The asset is included in patient and trade accounts receivable, and the corresponding liability is included in accrued expenses and other current liabilities on the consolidated balance sheet.

Inventory

Northern Light Health records inventory at the lower of cost or market using the first-in, first-out, or average cost methods.

Assets Whose Use Is Limited or Restricted

Assets whose use is limited or restricted include Board designated assets, assets held in trust under debt agreements, self-insurance trust arrangements, and assets that are donor-restricted. Donor restricted trusts held by unrelated entities for the benefit of various Northern Light Health organizations are reported as beneficial interest in perpetual trusts. Board-designated assets may be used at the Board's discretion.

Property and Equipment

Property and equipment are initially recorded at cost or, in the case of gifts, at fair market value at the date of the gift. Depreciation of property and equipment is computed using the straight-line method over the estimated useful lives of the related assets.

Buildings and equipment under lease obligations are amortized using the straight-line method over the shorter period of the lease term or estimated useful life of the building or equipment. Such amortization is included in depreciation and amortization in the consolidated statements of operations.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as an increase in net assets without donor restrictions (excluded from the deficiency of revenue and gains over expenses and losses), unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as an increase in net assets with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Leases

Northern Light Health combines and accounts for lease and nonlease components as a single lease component by the class of underlying asset. Right-of-use (ROU) assets and lease obligations are recognized on the balance sheet for all leases with a term greater than 12 months.

At the inception of a contract or arrangement, Northern Light Health determines if the contract or arrangement is, or contains, a lease based on the facts and circumstances. Lease classification then is determined as of the lease commencement date. Northern Light Health (i) determines the consideration of the contract, (ii) determines whether the lease is an operating or finance lease, and (iii) recognizes lease ROU assets and lease obligations.

The ROU assets represent Northern Light Health's right to use the underlying assets for the lease term and lease liabilities represent the obligation to make lease payments arising from the leases. ROU assets and lease liabilities are recognized at commencement date based on the present value of lease payments over the lease term. The discount rates related to Northern Light Health's lease liabilities are generally based on estimates of Northern Light Health's incremental borrowing rate, as implicit interest rate within the contract cannot usually be readily determined.

Lease expense on operating leases is recognized over the expected lease term on a straight-line basis, while expense on finance leases is recognized using the effective interest rate method. Lease expense on operating leases is reported as operating lease cost, whereas finance lease ROU assets are amortized to expense over the lease term and interest costs are expensed on the lease obligation throughout the lease term.

Impairment of Long-Lived Assets

Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of the carrying amount or fair value, less cost to sell.

Asset Retirement Obligations

Northern Light Health recognizes the liability for conditional asset retirement obligations when a legal obligation to perform asset retirement activities exists. The fair value of the liability for the legal obligation associated with an asset retirement is recorded in the period in which the obligation is incurred. When the liability is initially recorded, the cost of the asset retirement is capitalized.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Substantially all of the asset retirement obligations recorded relate to estimated costs to remove asbestos that are contained within Northern Light Health's facilities. The adjustments to the carrying amount of the asset retirement obligation were approximately \$693,000 and \$26,000 in 2023 and 2022, respectively, and were primarily attributable to revised estimates and accretion expense.

Costs of Borrowing

Interest costs incurred on borrowed funds during the period of construction of capital assets, net of investment income on borrowed assets held by trustees, are capitalized as a component of the cost of acquiring those assets. The amount of interest that was capitalized totaled approximately \$3,584,000 and \$1,383,000 in 2023 and 2022, respectively. Deferred financing costs and original issue premiums and discounts are amortized over the period the related obligation is outstanding using the effective interest rate method.

Endowment

Northern Light Health has interpreted state law as requiring realized and unrealized gains of net assets with donor restrictions to be retained in a net asset with donor restriction classification until appropriated by the Board and expended. As a result of this interpretation, Northern Light Health classifies as net assets with donor restrictions (a) the original value of the gifts donated to the endowment when explicit donor stipulations requiring permanent maintenance of the historical fair value are present, and (b) the original value of the subsequent gifts to the endowment when explicit donor stipulations requiring permanent maintenance of the historical fair value are present. The remaining portion of the donor-restricted endowment fund composed of accumulated gains not required to be maintained in perpetuity is classified as net assets with donor restrictions until those amounts are appropriated for expenditure in a manner consistent with the donor's stipulations.

Northern Light Health administers a formal spending policy consistent with state law to appropriate the net appreciation of net assets with donor restrictions as is deemed prudent by the Board considering Northern Light Health's long-term and short-term needs, price-level trends, and general economic conditions. Under this policy, Northern Light Health maintains an annual spending level generally in the range of 3%-6%, with a target of 5%, of each endowment fund's moving five-year average market value. Endowment assets are invested in a manner to generate returns at least equal to the planned spending, plus inflation over the long term. To satisfy its long-term rate-of-return objectives, Northern Light Health targets a diversified asset allocation that places a greater emphasis on equity-based investments within prudent risk constraints. Realized and unrealized gains on net assets with donor restrictions, which are not specifically restricted by donors, are reported as a net asset with donor restrictions until appropriated by the Board and expended.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Patient Service Revenue and Accounts Receivable

Patient service revenue is reported at the amount that reflects the consideration to which Northern Light Health expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, Northern Light Health bills the patients and third-party payors several days after the services are performed or the patient is discharged from the facility. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by Northern Light Health. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. Generally, performance obligations satisfied over time relate to patients in hospitals receiving inpatient acute care services or patients receiving services in outpatient centers or in their homes. Northern Light Health measures the performance obligation from admission into the hospital or the commencement of an outpatient service, to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge or completion of the outpatient services. Revenue for performance obligations satisfied at a point in time is generally recognized when goods are provided to patients and customers in a retail setting (for example, pharmaceuticals) and Northern Light Health does not believe it is required to provide additional goods or services related to that sale.

Because all of its performance obligations relate to contracts with a duration of less than one year, Northern Light Health is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

Healthcare entities are paid amounts negotiated with insurance companies or set by government programs which are typically less than established charges. Gross charges are what hospitals charge all patients prior to the application of contractual adjustments and implicit price concessions. Northern Light Health determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, and discounts provided to uninsured patients in accordance with Northern Light Health's policy.

Estimates of contractual adjustments and discounts are based on contractual agreements, discount policies, and historical experience. Implicit price concessions are based on historical collection experience. Patient and trade accounts receivable are stated at the amount management expects to collect from outstanding balances.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Agreements with third-party payors typically provide for payments at amounts less than established charges. A summary of the payment arrangements with major third-party payors follows:

Medicare

The acute care medical hospitals are subject to the federal Prospective Payment System (PPS) for Medicare inpatient hospital services, inpatient skilled nursing facility services, inpatient rehabilitation services, and certain outpatient services. Under these prospective payment methodologies, Medicare pays a prospectively-determined per discharge, per day, per procedure, or per visit rate for non-physician services. These rates vary according to the applicable Diagnosis Related Group (DRG), Case-Mix Group, or Resource Utilization Group. Capital costs related to Medicare inpatient PPS services are paid based upon a standardized amount per discharge weighted by DRG. For most outpatient services, Medicare makes payments based upon the Ambulatory Payment Classification (APC) of each patient. Certain other outpatient services are reimbursed according to fee schedules.

Northern Light Maine Coast Hospital and Northern Light A.R. Gould Hospital participate in a Medicare Rural Community Hospital Demonstration Project and are, therefore, no longer subject to PPS payments for inpatient hospital services and associated capital costs for the duration of this program. During the first fiscal year of the program, Medicare paid for the full reasonable costs incurred for inpatient services provided. The payment for subsequent years is the lesser of reasonable costs or a target amount determined by increasing the first-year program costs by the inpatient prospective payment factor update for each succeeding year. Northern Light Inland Hospital became eligible for Medicare Dependent Hospital status effective October 1, 2019, which provides for payments of inpatient services at the greater of a federal rate or a blend of a hospital specific rate. Effective April 1, 2020, Northern Light Maine Coast Hospital became designated as a sole-community hospital, and as such, receives enhanced outpatient reimbursement and is eligible to participate in the 340B program. Several Northern Light Health hospitals receive Disproportionate Share Hospital payments. These payments are made to qualifying hospitals to cover the costs of providing care to low-income patients.

Providers of home health services to clients eligible for Medicare home health benefits are paid on a prospective basis, with no retrospective settlement. The prospective payment is based on the scoring attributed to the acuity level of the client at a rate determined by federal guidelines. Providers of hospice services to clients eligible for Medicare hospice benefits are paid on a fee-for-service basis, with no retrospective settlement, provided the Agency's aggregate annual Medicare reimbursement is below a predetermined aggregate capitated rate. Revenue is recognized as the services are performed based on the fixed rate amount.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

MaineCare

MaineCare is the State of Maine's Medicaid program. Inpatient reimbursement for acute care medical hospitals is based upon prospectively-determined rates that vary according to the applicable DRG. Capital and physician service costs related to MaineCare inpatient services are paid based on a percentage of allowable costs. For most outpatient services, MaineCare makes payment based upon the APC of the patient. Outpatient physician services are paid on a percentage of allowable costs and certain other outpatient services are reimbursed according to fee schedules. Acute hospitals receive interim payments for capital costs and physician services at a tentative rate with final settlement determined after completion of annual cost reports by the State. Nursing facilities are reimbursed partially on a prospectively-determined per diem rate for direct and routine services together with a fixed cost component that is subject to final settlement determined after completion of an annual cost report by the State.

As a specialty psychiatric hospital facility, Northern Light Acadia Hospital is reimbursed for Medicare inpatient services on a PPS basis. The prospective payment methodology for psychiatric facilities is based on a variable acuity per diem rate. Northern Light Acadia Hospital is reimbursed for MaineCare inpatient services based on a negotiated rate related to established charges. Outpatient services are reimbursed based on a percentage of cost.

Northern Light Blue Hill Hospital, Northern Light CA Dean Hospital, Northern Light Mayo Hospital, and Northern Light Sebeccook Valley Hospital have been granted Critical Access Hospital (CAH) status by the Medicare and MaineCare Programs. Each CAH is reimbursed a percentage of allowable costs for inpatient and outpatient services provided to Medicare and MaineCare patients.

Northern Light Health has entered into various health management contracts. The contracts provide shared gains and losses based on performance against cost benchmarks with adjustments for quality goals.

The State assesses a healthcare provider tax on the revenues of hospitals and long-term care facilities. The amount of tax assessed to Northern Light Health organizations was approximately \$36,963,000 and \$37,720,000 in 2023 and 2022, respectively. This amount has been reported in supplies and other expenses in the accompanying consolidated statements of operations.

Laws and regulations concerning government programs, including Medicare and MaineCare, are complex and subject to varying interpretation. As a result of investigations by governmental agencies, various healthcare organizations have received requests for information and notices regarding alleged noncompliance with those laws and regulations, which, in some instances, have resulted in organizations entering into significant settlement agreements. Compliance with such laws and regulations may also be subject to future government review and interpretation, as well as significant regulatory action, including fines, penalties, and potential exclusion from the related programs. There can be no assurance that regulatory authorities will not challenge Northern Light Health's compliance with these laws and regulations, and it is not possible to determine the impact (if any) such claims or penalties would have upon Northern Light Health. In addition, the contracts Northern Light Health has with commercial payors also provide for retroactive audit and review of claims.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Settlements with third-party payors for retroactive adjustments due to audits, reviews, or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor, and Northern Light Health's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years become settled or are no longer subject to such audits, reviews, and investigations. Adjustments arising from changes in transaction price in 2023 and 2022 increased patient service revenue by \$34,384,000 and \$10,494,000, respectively.

The adjustments in 2023 include approximately \$33 million related to American Hospital Association's (AHA) suit against the Centers for Medicare and Medicaid Services (CMS) for reducing payment for 340B acquired drugs during 2018 through 2022. In June 2022, the U.S. Supreme Court ruled in favor of hospitals represented by AHA. In July 2023 CMS proposed a remedy to restore these payments, resulting in Northern Light Health being owed approximately \$33 million in additional reimbursement. This settlement has been recorded as a receivable and retroactive adjustment in the year ending September 30, 2023.

Implicit Price Concessions

Consistent with Northern Light Health's mission, care is provided to patients regardless of their ability to pay. Therefore, Northern Light Health has determined it has provided implicit price concessions to uninsured patients and patients with other uninsured balances (for example, copays and deductibles). The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and the amounts Northern Light Health expects to collect based on its collection history with those patients.

Patients who meet Northern Light Health's criteria for charity care are provided care without charge or at amounts less than established rates. Such amounts determined to qualify as charity care are not reported as revenue. Northern Light Health estimates the costs associated with providing charity care by calculating a ratio of total cost to total gross charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of caring for charity care patients was \$12,625,000 and \$13,996,000 for 2023 and 2022, respectively. Funds received from gifts and grants to subsidize charity services provided were \$852,000 and \$582,000 for 2023 and 2022, respectively.

For uninsured patients who do not qualify under the Northern Light Health's sliding fee discount program, Northern Light Health bills the patient based on Northern Light Health's amount generally billed (AGB) for services provided. Patient balances are typically due within 30 days of billing; however, Northern Light Health has entered into payment agreements with patients that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant.

Northern Light Health has determined that the nature, amount, timing, and uncertainty of revenue and cash flows are affected by the following factors: payors, service lines, method of reimbursement, and timing of when revenue is recognized. Tables providing details of these factors are presented in Note 5.

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Contributions and Gifts

Unconditional promises to give cash and other assets to Northern Light Health are reported at fair value at the date the promise is received. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of estimated future cash flows. The discounts on those amounts are computed using a risk-free rate applicable to the year in which the promise is received. Amortization of the discount is included in contribution revenue. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received and the conditions are met. Gifts are reported as an increase in net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the consolidated statements of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as additions to net assets without donor restrictions in the accompanying financial statements.

(Deficiency) Excess of Revenue and Gains Over Expenses and Losses

The consolidated statements of operations include (deficiency) excess of revenue and gains over expenses and losses. Changes in net assets without donor restrictions which are excluded from (deficiency) excess of revenue and gains over expenses and losses, consistent with industry practice, include transfers of assets to and from affiliates for other than goods and services, pension and postretirement plan adjustments, and contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

Other Revenue

Investment income on operating assets without donor restrictions is included in other revenue in the year earned. Grant revenue, meaningful use incentives, 340B drug discount program revenue, cafeteria sales, and gift shop revenue are also included in other revenue.

Income Taxes

Northern Light Health, its hospitals, and certain other affiliates have been determined by the Internal Revenue Service to be tax-exempt charitable organizations as described in Section 501(c)(3) or 501(c)(2) of the Internal Revenue Code (the Code) and, accordingly, are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Accordingly, no provision for federal income taxes has been recorded in the accompanying financial statements for these organizations.

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Tax-exempt charitable organizations could be required to record an obligation for income taxes as the result of a tax position they have historically taken on various tax exposure items, including unrelated business income or tax status. Under guidance issued by FASB, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the “more-likely-than-not” threshold, based upon the technical merits of the position. Estimated interest and penalties, if applicable, related to uncertain tax positions are included as a component of income tax expense. Northern Light Health has evaluated its tax position taken or expected to be taken on income tax returns and concluded the impact to be not material.

Certain of Northern Light Health's affiliates are taxable entities. Deferred taxes related to these entities are based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect in the years the differences are expected to reverse. The deferred tax assets and liabilities for these entities are not material.

Accrual for Self-Insurance Liabilities

The liabilities for outstanding losses and loss-related expenses include estimates for professional and general liability losses incurred, but not reported, as well as losses pending settlement. Insurance recoveries are included in other assets and are not netted against the liability. Such liabilities are necessarily based on estimates, and while management believes that the amounts provided are adequate, the ultimate liability may be in excess of or less than the amounts provided. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The methods for making such estimates and the resulting liability are actuarially reviewed on an annual basis and any adjustments are reflected in operations during the related period.

Northern Light Health also estimates and records a liability for claims incurred, but not reported for employee health and dental benefits provided through self-insured plans. The liability is estimated based on prior claims experience and the expected time period from the date such claims are incurred to the date the related claims are submitted and paid.

Accounting for Defined Benefit Pension and Other Postretirement Plans

Northern Light Health recognizes the overfunded or underfunded status of its defined benefit and postretirement plans as an asset or liability in its consolidated balance sheets. Certain changes in the funded status of the plans are reported as a change in net assets without donor restrictions presented below the deficiency of revenue and gains over expenses and losses in the consolidated statements of operations and changes in net assets in the year in which the changes occur.

Service Agreements

On December 29, 2022, Northern Light Health entered a 10-year master services agreement commencing on March 26, 2023, with OptumInsight, Inc. (Optum) for the provision of certain operational functions including revenue cycle management, information systems, inpatient care management, analytics, enterprise project management, and supply chain. In addition, the agreement includes the provision of advisory services for operational improvement.

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

As part of this agreement, approximately 1,400 employees were transferred to Optum on March 26, 2023. As a result of the change in employment, the Cash Balance Plan was subject to settlement costs as described in Note 12.

The agreement includes the transfer or assignment of certain contracts.

The agreement includes quarterly fees for the managed operations and advisory services. The fees for managed operations are subject to annual escalation clauses, inflation adjustments commencing in contract year three and volume adjustments for revenue cycle and inpatient care management commencing in contract year two. The following is a schedule by year of annual payments for managed services and advisory services at September 30, 2023 (dollars in thousands):

Years Ending September 30:

2024	\$	189,861
2025		211,513
2026		226,576
2027		235,604
2028		243,881
Thereafter		1,197,245

The agreement includes performance improvement payments related to revenue cycle, inpatient care management, improvement in certain clinical operations and supply chain. An estimated liability for performance improvements payments of \$7,271,141 was recorded at September 30, 2023. In addition, there are also a variety service level metrics that include penalties for certain key indicators. As of September 30, 2023, there were no service level metrics that had penalties associated with them.

Also on December 7, 2022, Northern Light Health, Affiliated Healthcare Systems, Affiliated Laboratory Inc. (ALI) and Quest Diagnostics LLC (Quest) entered into an asset purchase agreement whereby ALI agreed to sell substantially all of the assets attributable to its outreach business, including equipment and inventory, to Quest for a purchase price of \$30,700,000 (Business 1). In connection with the foregoing agreement, Quest also agreed to acquire from ALI an additional laboratory outreach business occurring at or attributable to certain primary care practice locations of Northern Light Eastern Maine Medical Center for a purchase price of \$1,540,000 (Business 2). The sale of Business 1 closed on March 20, 2023. The sale of Business 2 closed on August 14, 2023. Subject to certain carveouts, Northern Light Health and its Affiliates are subject to a seven year restrictive covenant agreement that prohibits engagement in competing outreach lab services.

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

On December 7, 2022, Northern Light Health and Quest entered into a Laboratory Management Agreement (LMA) whereby Quest manages certain of Northern Light Health's hospital based laboratories and provides reference testing services. Pursuant to the LMA, Quest purchased certain reagent bearing equipment and supplies on January 1, 2023 at a purchase price of \$1,327,443. On the same date, certain Northern Light lab employees transitioned to Quest. The LMA consists of both fixed and variable fees. Subject to each party's respective rights to termination for cause, the initial term of the LMA is seven years. Thereafter, the LMA auto-renews for successive one year periods (each a Renewal Term), and either party may terminate during a Renewal Term (no cause required) by providing a 180 day notice.

COVID-19

In March 2020, the World Health Organization declared coronavirus disease (COVID-19) a global pandemic and the United States federal government declared COVID-19 a national emergency. Northern Light Health implemented an emergency response to ensure the safety of its patients, staff, and the community.

COVID-19 Relief Funding

The Coronavirus Aid, Relief, and Economic Security (CARES) Act established the Provider Relief Fund (PRF) and American Rescue Plan (ARP) Rural payments to support healthcare providers in the battle against the COVID-19 outbreak. The PRF and ARP are administered by the U.S. DHHS. Funds are to be used for qualifying expenses and to cover lost revenue due to COVID-19. The funds are recognized in other revenue when qualifying expenditures or lost revenues have been incurred.

The following table outlines the distributions received, period of availability, and revenue recognized:

Distribution Period	Distribution Amount	Revenue Recognized in 2022	Revenue Recognized in 2021	Revenue Recognized in 2020
Period 1	\$ 76,136,610	\$ -	\$ -	\$76,136,610
Period 2	13,288,278	-	10,786,354	2,501,924
Period 3	71,854,572	-	71,854,572	-
Period 4	29,246,090	29,246,090	-	-
Period 5	23,228,222	23,228,222	-	-
Total	\$213,753,772	\$52,474,312	\$82,640,926	\$78,638,534

There were no PRF or ARP funds received or recognized in 2023. Management believes the position taken is a reasonable interpretation of the rules currently available. PRF and ARP funds are subject to audit by the Health Resources and Services Administration. Any difference between amounts previously estimated and amounts subsequently determined to be recoverable or payable will be included in income in the year that such amounts become known.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

In 2020, Northern Light Health received approximately \$178,051,000 in funds from the Medicare Accelerated and Advance Payment Program, which represent working capital financing which will be repaid through the provision of future services to the Medicare program. In 2022, CMS offered an extended repayment plan of the remaining balance. Northern Light Health agreed to various repayment plans, beginning in November 2022 and ending September 2023. The funds have been fully repaid as of September 30, 2023.

The CARES Act also provided for an extension of time to remit payroll taxes for the period beginning March 27, 2020 and ending before January 1, 2021. Repayment is allowed over a two-year period with half due by December 31, 2021 and the remainder due by December 31, 2022. Deferred payroll taxes included in accrued expenses and other current liabilities totaled \$15,800,000 at September 30, 2022. There were no deferred payroll taxes included in accrued expenses and other current liabilities at September 30, 2023.

The Federal Emergency Management Agency (FEMA) provided reimbursement of COVID-19 related expenses totaling \$46,849,000 and \$725,000 for 2023 and 2022, respectively.

COVID-19 Continuing Operational Impacts

Northern Light Health's financial and operational performances have been significantly influenced by the ongoing COVID-19 pandemic and a pervasive shortage in clinical staff and rising operating costs. Since its outbreak in March 2020, COVID-19 has attributed to unpredictable patient volumes and severity, evolving virus variants, and significant pressures on staffing and wage rates. Northern Light Health continues to face operational challenges from a nationwide shortage of nurses, clinical staff, and support personnel. This labor scarcity has increased the reliance on higher-cost temporary labor and premium wages to maintain operational efficiency.

Additionally, Northern Light Health has experienced unprecedented inflationary pressures, with the inflation rate reaching heights unseen in over four decades. Given the reimbursement landscape, payers may not adjust reimbursement rates to offset the inflationary and staffing impacts adequately. Northern Light Health has employed measures including negotiating increased rates from commercial insurers, obtaining COVID-19 relief funding, and implementing productivity enhancement and cost reduction initiatives to mitigate these challenges. The extent and duration of the COVID-19 disruption on operations remain uncertain.

Recent Accounting Standards

From time to time, new accounting guidance is issued by the FASB or other standard setting bodies that is adopted by us as of the effective date or, in some cases where early adoption is permitted, in advance of the effective date. We have assessed the recently issued guidance that is not yet effective and, unless otherwise indicated above, we believe the new guidance will not have a material impact on our results of operations, cash flows, or financial position.

Subsequent Events

For purposes of the preparation of these financial statements, Northern Light Health has considered transactions or events occurring through December 18, 2023, which was the date that the financial statements were issued.

3. Liquidity and Availability of Financial Assets

As of September 30, 2023 and 2022, Northern Light Health has a working average days (based on normal expenditures) cash (from all sources) on hand of 67.34 and 75.20, respectively.

Financial assets available for general expenditures within one year of the balance sheet date consist of the following (dollars in thousands):

	<u>2023</u>	<u>2022</u>
Cash and cash equivalents	\$ 87,823	\$ 100,095
Accounts receivable	282,970	253,230

Other receivables	<u>33,439</u>	<u>16,864</u>
	<u>\$ 543,568</u>	<u>\$ 477,351</u>

Northern Light Health has other assets whose use is limited to use for donor-restricted purposes, debt service, and for the professional and general liability insurance program. Additionally, certain other Board-designated assets are designed for future capital expenditures and an operating reserve. These assets whose use is limited, which are more fully described in Note 6 are not for general expenditure within the next year and are not reflected in the amounts above. However, the Board-designated amounts could be made available, if necessary.

Northern Light Health maintains lines of credit as discussed in more detail in Note 9. As of September 30, 2023 and 2022, \$150 million and \$142 million, respectively, remained available on the lines of credit. Management regularly monitors liquidity required to meet its operating needs and other contractual commitments.

4. Community Benefit

Northern Light Health provides a wide range of free or reduced cost programs and services to those in need of care, injured, or disabled. In addition, every Northern Light Health member organization plays a vital community role working in partnership with others to assess community health needs, advance health equity, and improve population health through prevention and intervention efforts.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Community benefits are provided via a broad range of community health improvement efforts. They are programs, services, and investments designed to improve the health of our communities and increase access to healthcare in response to identified community health needs. These benefits are designed to improve access to healthcare services, enhance the health of the community, advance medical or healthcare knowledge, and relieve or reduce the burden of government to improve health.

Community benefit activities are integral to the mission of Northern Light Health and are the basis of tax exemption. Northern Light Health provides community benefit in the form of community health improvement services, health professions education, research, cash and in-kind donations, community building activities, and low or no cost healthcare services to uninsured patients. Northern Light Health and its member organizations strive to improve population health and promote wellness for all who live, play, learn, and work in Northern Light Health communities through community benefit contributions.

Northern Light Health's community health improvement services focus on ways to improve the health of communities outside the traditional walls of facilities and services. Community health improvement services respond to health needs in the communities it serves by providing community health education in the form of presentations, lectures, programs, and wellness initiatives such as nutritional improvement, physical activity, and substance use prevention provided to schools, community groups, support groups, and others. Community-based clinics provide health screenings in the community. Healthcare support services focus on increasing access and quality of healthcare, especially to those living in poverty and other vulnerable populations. Social and environmental improvement activities address social, economic, and physical environment such as improving availability of healthy food options, violence prevention, and economic development activities.

5. Net Patient Service Revenue

Net patient service revenue for the years ended September 30, 2023 and 2022 consisted of the following (dollars in thousands):

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

In assessing collectability, Northern Light Health has elected the portfolio approach. This portfolio approach is being used as Northern Light Health has a large volume of similar contracts with similar classes of customers. Northern Light Health reasonably expects that the effect of applying a portfolio approach to a group of contracts would not differ materially from considering each contract separately. Management's judgment to group the contracts by portfolio is based on the payment behavior expected in each portfolio category. As a result, aggregating all of the contracts (which are at the patient level) by the particular payor or group of payors, will result in the recognition of the same amount of revenue as applying the analysis at the individual patient level.

The composition of patient care service revenue based on payor, service line, and method of reimbursement for the years ended September 30, 2023 and 2022 is as follows:

EMHS Obligated Group

In conjunction with the issuance of the 2016 bonds, the majority of the not-for-profit healthcare providers in Northern Light Health became part of the EMHS Obligated Group. The purpose of the obligated group is to simplify the debt structure of Northern Light Health and to allow Northern Light Health to make capital available to members with lower costs of capital and less restrictive debt covenants. The members of the EMHS Obligated Group are jointly liable for the debt service on the obligations issued under the Master Trust Indenture for the EMHS Obligated Group. On September 30, 2023 and 2022, the EMHS Obligated Group had obligations totaling approximately \$556,789,000 and \$498,241,000, respectively, which are covered under the Master Trust Indenture.

Debt obligations issued under the Master Trust Indenture require that the EMHS Obligated Group on a consolidated basis satisfy certain measures of financial performance (including a minimum debt service coverage ratio) as long as the obligations are outstanding. The EMHS Obligated Group complied with such covenants at September 30, 2023. The EMHS Obligated Group debt service coverage ratio at September 30, 2022 is below the required level. In accordance with the Master Trust Indenture, a consultant has been retained to provide recommendations to achieve compliance with the ratio.

Bonds Payable

Series 2022C Bonds — On November 15, 2022, Acadia Hospital issued \$40,765,000 in notes payable to secure tax-exempt revenue bonds issued by the Maine Health and Higher Educational Facilities Authority (the Authority) for the purpose of financing new construction. The Series 2022C bonds are collateralized under the 2022 EMHS Obligated Group Supplemental Trust Indenture by a security interest in its gross receipts and a mortgage of certain EMHS Obligated Group facilities.

Series 2022C Bonds — On November 15, 2022, Blue Hill Hospital issued \$20,200,000 in notes payable to secure tax-exempt revenue bonds issued by the Authority for the purpose of financing new construction. The Series 2022C bonds are collateralized under the 2022 EMHS Obligated Group Supplemental Trust Indenture by a security interest in its gross receipts and a mortgage of certain EMHS Obligated Group facilities.

Series 2022C Bonds — On November 15, 2022, CA Dean Hospital issued \$15,610,000 in notes payable to secure tax-exempt revenue bonds issued by the Authority for the purpose of financing new construction. The Series 2022C bonds are collateralized under the 2022 EMHS Obligated Group Supplemental Trust Indenture by a security interest in its gross receipts and a mortgage of certain EMHS Obligated Group facilities.

Series 2022C Bonds — On November 15, 2022, Maine Coast Hospital issued \$2,555,000 in notes payable to secure tax-exempt revenue bonds issued by the Authority for the purpose of financing new construction. Series 2021A Bonds — On May 1, 2021, Mercy Hospital issued \$83,370,000 in notes payable to secure tax-exempt revenue bonds issued by the Authority for the purpose of refunding the Series 2020 bonds and Series 2015 note. The Series 2021A bonds are collateralized by a security interest in its gross receipts and a mortgage lien.

Series 2021B Bonds — On May 1, 2021, EMMC issued \$156,870,000 in notes payable to secure taxable revenue bonds issued by the Authority for the purpose of refunding the Series 2013 bonds. The 2021B bonds are collateralized by a security interest in its gross receipts and a mortgage lien.

Series 2019C Bonds — On November 1, 2019, Eastern Maine Medical Center issued \$42,350,000 in notes payable to secure tax-exempt revenue bonds issued by the Authority for the purpose of refunding the Series 2010A bonds. The Series 2019C bonds are collateralized by a security interest in its gross receipts.

Series 2017B Bonds — On December 1, 2017, Inland Hospital and Lakewood issued \$7,310,000 in notes payable to secure tax-exempt revenue bonds issued by the Authority for the purpose of refunding the Series 2007B bonds. The Series 2017B bonds are collateralized by substantially all of the real property of Inland Hospital and Lakewood and a security interest in their gross receipts.

Series 2016A Bonds and Series 2016B Taxable Bonds — On July 13, 2016, the EMHS Obligated Group issued \$170,825,000 in notes payable to secure tax-exempt Series 2016A revenue bonds issued by the Authority and \$79,450,000 in a Series 2016B Taxable Note pursuant to the Master Trust Indenture with U.S. Bank National Association as trustee. The 2016A bonds were issued for the second phase of the EMMC expansion and modernization project, expansion and modernization of an ambulatory care facility at CA Dean, and refunding of A.R. Gould Series 2012A bonds, A.R. Gould and Blue Hill Series 2010A bonds, and Maine Coast Series 2008D, 2011C, and 2013A bonds. The 2016B bonds were issued for the purpose of refinancing certain line of credit borrowings and term loan indebtedness of Northern Light Health and other members of the Obligated Group, paying swap termination fees and financing certain transition costs related to members of the Obligated Group. The Series 2016A and 2016B bonds are collateralized by a security interest in the gross receipts of all members of the Obligated Group, as well as mortgages and/or security interests in certain real and/or personal property of certain members of the Obligated Group.

The obligations under the 2016A and 2016B debt instruments were allocated to each of the members of the Obligated Group based on the member's percentage interest in the obligation.

Series 2015A Bonds — In 2015, Inland issued \$902,000 in notes payable to secure tax-exempt revenue bonds issued by the Authority for the purpose of refunding the Series 2006A bond. The Series 2015A bonds are collateralized by substantially all of the real property of Inland and a security interest in its gross receipts.

Series 2015 Taxable Note — This note was issued in conjunction with the consolidation of the Mercy Health System of Maine Obligated Group into the EMHS Obligated Group. The note is collateralized under the 2015 EMHS Obligated Group Supplemental Master Trust Indenture by a first priority security interest in gross revenues and accounts receivable and a mortgage of certain EMHS Obligated Group facilities.

Finance Authority of Maine 2013 Bonds — In 2013, SVH issued \$10,500,000 in notes payable to secure tax-exempt revenue bonds issued by the Finance Authority of Maine for the purpose of financing construction costs and refunding existing debt. The Series 2013 bonds are collateralized by a security interest in the pledged receipts.

Installment Loans

Several Northern Light Health affiliates have mortgages, notes payable, and installment loans outstanding totaling \$4,297,000 and \$6,240,000 at September 30, 2023 and 2022, respectively. The notes bear interest at rates ranging between 2.860% and 5.500% per annum and are payable through 2028.

Letters and Lines of Credit

Northern Light Health obtained a \$75,000,000 non-revolving line of credit arrangement with interest of 6.681% at September 30, 2023. The purpose of the line of credit is to provide working capital funds. The line of credit is collateralized pursuant to the terms of the Master Trust Indenture for the Northern Light Health Obligated Group and is set to expire on July 14, 2024. There were no borrowings outstanding at September 30, 2023 and 2022.

Northern Light Health obtained a \$75,000,000 non-revolving line of credit arrangement with interest of 7.567% at September 30, 2023. The purpose of the line of credit is to provide working capital funds. The line of credit is collateralized pursuant to the terms of the Master Trust Indenture for the Northern Light Health Obligated Group and is set to expire on July 15, 2024. There were no borrowings outstanding at September 30, 2023. There were \$8,245,000 of borrowings outstanding at September 30, 2022.

Beacon Health, LLC, EMMC and Mercy have letter of credit agreements with various maturities and interest rates. Maximum available borrowings under the agreements are \$1,565,254 and \$1,859,254 at September 30, 2023 and 2022, respectively. There were no borrowings outstanding at September 30, 2023 and 2022.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Northern Light Health to retain as a fund in perpetuity. At September 30, 2023 and 2022, there were no funds with deficiencies.

Endowment Net Asset Composition and Changes in Endowment Net Assets

Donor restricted endowment net assets totaled \$55,831,000 and \$53,454,000 at September 30, 2023 and 2022 respectively. The changes therein for the years then ended, is as follows (dollars in thousands):

11. Self-Insurance and Other Contingencies

Professional and General Liability

Northern Light Health maintains a deductible program with underlying coverage provided by Medical Mutual Insurance Company of Maine and excess insurance coverage provided by various commercial insurance companies. The program serves as a mechanism to fund deductibles with funding determined by independent actuarial projections. For both professional and general liability, the program provides total limits of \$2,000,000 per claim and \$16,000,000 in the aggregate, subject to a deductible of \$1,000,000 per claim and \$6,000,000 in the aggregate. Additional excess coverage has been obtained. At September 30, 2023 and 2022, there were no known claims outstanding, which in the opinion of management, will be settled in excess of insurance coverage.

The investment assets and accrued self-insurance reserves of the professional and general liability trust were \$55,608,000 and \$48,547,000, respectively, as of September 30, 2023 and \$46,436,000 and \$42,710,000, respectively, as of September 30, 2022.

Workers' Compensation

Northern Light Health maintains a common trust fund for a group workers' compensation program in accordance with the Maine Workers' Compensation Act. Because the common trust fund is regulated by the Maine Bureau of Insurance, neither the assets nor the liabilities of the trust are reflected in the accompanying financial statements. The assets of the trust were approximately \$14,515,000 and \$16,867,000 and the liabilities were approximately \$13,399,000 and \$15,834,000 at September 30, 2023 and 2022, respectively.

Employee Health Benefits

Employee health and dental benefits are provided through partially self-insured plans or commercially-acquired programs. The self-insured medical plan had stop loss coverage that provides reimbursement for claims other than those paid within Northern Light Health in excess of \$1,000,000 per individual as of September 30, 2023 and 2022.

Other Contingencies

Northern Light Health is party in various legal proceedings and potential claims arising in the ordinary course of business. In addition, the healthcare industry as a whole is subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations is subject to government review and interpretation, as well as regulatory actions, which could result in the imposition of significant fines and penalties, as well as significant repayments of previously billed and collected revenue, from patient services and exclusion from the Medicare and Medicaid programs. Such compliance in the healthcare industry has recently come under increased governmental scrutiny. Management does not believe that these matters will have a material adverse effect on Northern Light Health's financial position or results of operations.

12. Pension and Postretirement Healthcare Plans

Cash Balance Plan

Employees of certain Northern Light Health affiliates participate in a Defined Benefit, Cash Balance Plan (the Plan). At the close of every calendar year, participating employers credit the employee's core account with a contribution based on eligible pay, age, and years of credited service. The employee must be at least 21 years of age and have worked 1,000 hours in the current calendar year to receive the contribution for that year. The funding policy of the Plan is to make contributions at least equal to the minimum amount required under the law.

The following table sets forth the Plan's funded status and amounts recognized in the consolidated balance sheets at September 30, 2023 and 2022 (dollars in thousands):

	<u>2023</u>	<u>2022</u>

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH**Notes to Consolidated Financial Statements****September 30, 2023 and 2022**

Northern Light Health's contribution to the Plan for 2023 and 2022 exceeded amounts required by the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's Adjusted Funding Target Attainment Percentage under ERISA was 86% and 103% at September 30, 2023 and 2022, respectively. As a result, the Plan is not subject to ERISA benefit restrictions.

For the years ended September 30, 2023 and 2022, net periodic pension cost for the Plan included the following components (dollars in thousands):

	<u>2023</u>	<u>2022</u>
Service cost for benefits earned during the year	\$ 16,710	\$ 23,971
Interest cost on projected benefit obligation	18,391	11,722
Expected return on Plan assets	(22,182)	(22,447)
Amortization of prior service cost	9	10
Amortization of net loss	<u>3,387</u>	<u>10,885</u>
Net periodic pension benefit cost	<u>16,315</u>	<u>24,141</u>
Recognized settlement loss	10,761	-
Recognized curtailment loss	<u>4</u>	<u>-</u>
Total settlement and curtailment losses	<u>10,765</u>	<u>-</u>
Total cost	<u>\$ 27,080</u>	<u>\$ 24,141</u>

Net periodic pension costs of \$10,369,570 and \$169,739 are reported in other gains (losses) for the years ended September 30, 2023 and 2022, respectively. Service cost is reported in compensation and employee benefits in the statement of operations.

The significant (gains) losses related to changes in the benefit obligation for the years ended September 30, 2023 and 2022 were primarily due to the change in the discount rate assumption.

The following table sets forth the weighted-average assumptions used in determining the benefit obligations at September 30, 2023 and 2022:

	<u>2023</u>	<u>2022</u>
Discount rate	6.10%	5.60%
Rate of increase in future compensation	3.00	3.00
Cash balance interest credit rate	4.75	4.50

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

The following sets forth the weighted-average assumptions used to determine net periodic benefit cost for the years ended September 30, 2023 and 2022:

	<u>2023</u>	<u>2022</u>
Discount rate	5.30%	2.75%
Rate of increase in future compensation	3.00	3.00
Expected long-term rate of return on plan assets	7.50	7.50

The discount rate represents an estimate of the rate at which the pension benefits could be "effectively" settled. The rate of compensation increase represents a best estimate of long-term pay increases and reflects an inflation expectation consistent with the discount rate. The long-term rate of return on Plan assets represents an estimate of the rate of return on current assets, taking into account the Plan's asset allocation, and also reflects an inflation expectation consistent with the discount rate.

Northern Light Health expects to make \$35,300,000 in contributions to the Plan during 2024. In addition, the following benefit payments, which reflect expected future services, as appropriate, are expected to be paid during the years ending (dollars in thousands):

2024	\$	33,097
2025		29,006
2026		29,604
2027		31,612
2028		30,381
2029 – 2033		158,805

Northern Light Health has adopted a moderately growth-oriented investment policy for the Plan. It is anticipated that as the Plan matures, the policy should move toward a more conservative posture. Northern Light Health's overall strategy is to invest in high-grade securities and other assets with a minimum risk of market value fluctuation. In general, Northern Light Health's goal is to maintain the following allocation ranges:

	<u>Minimum</u>	<u>Allocation % Target</u>	<u>Maximum</u>
Public Equity	44%	54%	64%
Liability Hedging Assets	30	40	50
Multi Asset	-	4	10
Cash	-	2	10

Defined Contribution Plans

Certain of Northern Light Health's affiliates sponsor defined contribution plans, which cover substantially all of their employees, and certain hospital-based physicians meeting the Plans' participation requirements. Expense for the years ended September 30, 2023 and 2022 was approximately \$16,907,000 and \$16,732,000, respectively. The affiliates fund the amount of the expense annually.

Deferred Compensation Plans

Several of Northern Light Health's affiliates sponsor deferred compensation plans for eligible employees and supplemental executive retirement plans (SERPs) for certain executives. Assets held by Northern Light Health to provide for the payments of contractual liabilities are subject to the claims of Northern Light Health's general creditors. The assets are invested in temporary cash investments, institutional mutual funds, and common/collective trusts. The investment assets and related liabilities of the deferred compensation and SERPs were \$62,487,000 and \$62,403,000, respectively, as of September 30, 2023 and \$54,195,000 and \$53,824,000, respectively, as of September 30, 2022.

Postretirement Medical Benefits

Various Northern Light Health organizations provide certain medical benefits for retired employees. Employees of these various participating organizations may become eligible for these benefits if they reach normal retirement age while working for such organizations. Early retirement benefits are available to retirees with at least 15 years of vested service. Employees at participating organizations hired after January 1, 2005 and the employees of a nonparticipating company are not eligible for retiree medical benefits. The postretirement medical plan is not funded.

For the years ended September 30, 2023 and 2022, net periodic postretirement medical benefit cost consists of the components listed below (dollars in thousands):

	<u>2023</u>	<u>2022</u>
Service cost for benefits attributed to service during the year	\$ 60	\$ 72
Interest cost on accumulated postretirement benefit obligation	1,258	833
Amortization of prior service credit and actuarial gain	<u>(606)</u>	<u>374</u>
Net periodic postretirement medical benefit cost	\$ <u>712</u>	\$ <u>1,279</u>

Net periodic postretirement medical benefit cost of \$652,000 and \$1,206,000 are reported in other gains (losses) for the years ended September 30, 2023 and 2022, respectively. Service cost is reported in compensation and employee benefits in the statement of operations.

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

The following table sets forth the components of the accumulated postretirement benefit obligation shown in Northern Light Health's financial statements at September 30, 2023 and 2022 (dollars in thousands):

	<u>2023</u>	<u>2022</u>
Change in postretirement benefit obligation		
Benefit obligation – beginning of year	\$ 23,388	\$ 31,208
Service cost	60	72
Interest cost	1,258	833
Benefits paid	(1,670)	(1,691)
Actuarial loss (gain)	<u>2,328</u>	<u>(7,034)</u>
Benefit obligation at September 30	<u>\$ 25,364</u>	<u>\$ 23,388</u>
Cumulative amounts recognized in other changes in net assets without donor restrictions		
Prior-service costs	\$ 815	\$ 1,294
Actuarial gain	<u>(7,488)</u>	<u>(10,901)</u>
Total recognized in other changes in net assets without donor restrictions	<u>\$ (6,673)</u>	<u>\$ (9,607)</u>

Approximately \$2,185,000 and \$1,837,000 of the benefit obligation is included in current liabilities at September 30, 2023 and 2022, respectively.

The significant loss related to changes in the benefit obligation for the year ended September 30, 2023 was primarily due to demographic experience and claims experience being higher than expected, offset by the decrease in the discount rate.

In determining the accumulated postretirement medical benefit obligation, Northern Light Health used discount rates of 6.10% in 2023 and 5.60% in 2022. The Plan assumed annual rates of inflation in the per capita cost of covered healthcare benefits. The rates are assumed to decrease gradually down from 6.25% to 4.00% on a graded scale, becoming fixed in 2026.

Northern Light Health expects to contribute \$2,251,000 to the postretirement benefit plan during 2024.

Labor Force

Certain Northern Light Health hospitals have employees that are members of the Maine State Nurses Association and/or Teamsters Union. Between 19% to 22% of the workforce at each; EMMC, Maine Coast, and AR Gould, have contracts expiring at various times through July 2027.

14. Fair Value Measurements

U.S. GAAP establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 — Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 — Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3 — Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Unrealized gains or losses on interest in trusts and charitable gift annuities in Level 3 are included in net unrealized gains or losses on investments in net assets with donor restrictions. Unrealized gains or losses on other equity investments in Level 3 are included in change in net unrealized gains or losses on investments in investment income.

Fair values of investments are provided by investment custodians, trustees, managers, or advisors. The following is a description of the valuation methodologies used for assets and liabilities measured at fair value:

Cash Investments — The carrying value of cash investments approximates fair value as maturities are less than three months and/or include money market funds that are based on quoted prices and actively traded.

Pledges and Other Receivables — These are valued at the present value of cash expected to be collected in future years, discounted using a risk-free rate applicable to the year in which the pledge is received. Discount rates ranged from 4.72% to 5.12% at September 30, 2023 and 3.90% to 4.12% at September 30, 2022.

Marketable Equity Securities — The fair values of marketable securities are based on quoted market prices.

EASTERN MAINE HEALTHCARE SYSTEMS d/b/a NORTHERN LIGHT HEALTH

Notes to Consolidated Financial Statements

September 30, 2023 and 2022

Mutual Funds — The fair values of mutual funds and institutional mutual funds are based on quoted market prices.

Fixed-Income Securities — The estimated fair values of debt securities are based on quoted market prices and/or other market data for the same or comparable instruments and transactions.

Interest in Trusts and Charitable Gift Annuities — The fair values of the interest in trusts and charitable gift annuities are based on the underlying assets of the trusts and charitable gift annuities reported by the trustees, which all have readily determinable fair values based on quoted market prices of identical or comparable securities. The underlying investments are not readily available to Northern Light Health and, therefore, this is considered to be a Level 3 investment.

Beneficial Interest in Perpetual Trusts — The fair values of the beneficial interest in perpetual trusts are based on the underlying assets of the trusts reported by the trustee, which all have readily determinable fair values based on quoted market prices of identical or comparable securities. The underlying investments are not readily available to Northern Light Health and, therefore, this is considered to be a Level 3 investment.

Deferred Compensation Liability — The fair values of the deferred compensation liabilities are based on the related assets.

Liability Hedging Funds — Consists of a mix of high quality, intermediate to long duration bond strategies, including U.S. long corporate credit, U.S. long treasuries, U.S. strips, U.S. intermediate credit, U.S. intermediate treasuries, etc. The allocation is optimized to hedge a portion of the interest rate risk.

Large Cap U.S. Equity — Seeks to provide long-term growth of capital by investing primarily in large cap equity securities and to achieve above average results over a market cycle. Large cap (large capitalization) investments involve stocks of companies generally having a market capitalization between \$10 billion and \$200 billion.

Multi-Asset Funds — Seeks favorable returns and offers a convenient way to diversify a portfolio by combining funds and separate accounts investing in U.S. and non-U.S. stocks, bonds, global commodities, listed real estate, and infrastructure into one fund.

Hedge Funds — Seeks to offer investors low correlation to traditional assets, and aims to provide diversification, lower volatility, and higher risk-adjusted returns at the portfolio level. The fund's underlying managers represent a range of hedge fund strategies, which invest in global developed and emerging market equities, debt, and currency markets.

15. Functional Expenses

Northern Light Health is a community-based health system dedicated to improving the health of the residents of its region. The financial statements report certain expense categories that are attributable to more than one healthcare service or support function. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Costs not directly attributable to a function, including depreciation, amortization, interest, and other occupancy costs, are allocated to a function based on square-footage or units-of-service basis. Allocated healthcare services costs not allocated on a units-of-service basis are otherwise allocated based on revenue. Fundraising expenses are included in administrative support, and totaled approximately \$4.3 million and \$4.1 million in 2023, and 2022, respectively.

The following is a schedule by year of functional expenses (dollars in thousands):

16. Leases and Other Commitments

Leases

Northern Light Health leases certain equipment, warehouse, hospital, and office space subject to various agreements. Operating leases are primarily for real estate, including certain acute care facilities, off-campus outpatient facilities, medical office buildings, and corporate and other administrative offices. Real estate lease agreements typically have initial terms of five to ten years. These real estate leases may include one or more options to renew, with renewals that can extend the lease term from five to ten years. The exercise of lease renewal options is at Northern Light Health's sole discretion. When determining the lease term, options to extend or terminate the lease are included when it is reasonably certain that Northern Light Health will exercise that option.

The following table presents the lease-related assets and liabilities as of September 30, 2023 and 2022 (dollars in thousands):

Operating cash flows - operating leases	\$ 5,934	\$ 7,057
Financing cash flows - finance leases	\$ 4,490	\$ 1,558
Non-cash lease related items:		
ROU assets obtained in exchange for new finance leases	\$ 3,566	\$ 8,392
ROU assets obtained in exchange for new operating leases	\$ 19,177	\$ 4,169

In the ordinary course of business, Northern Light Health routinely lease equipment pursuant to new lease arrangements that will likely result in future lease and rental expense in excess of amounts indicated above.

Northern Light Health leased warehouse and office space from Penobscot Logistics Solutions, LLC, a related party. The building was sold in April 2022 to an unrelated party. Total lease expense through April 30, 2022 was \$288,464.

Other Commitments

Northern Light Health has agreements through 2033 with its clinical and ERP systems vendors for remote hosting services, and a perpetual license agreement for clinical systems vendors. The payments provide for the maintenance and support for the licensed software and hardware.
