## Maine Shared Community Health Needs Assessment County Summary: 2015

## **Qualitative Stakeholder Input**

A survey of 46 health professionals and community stakeholders in Franklin County provided insight into the most critical health issues and determinants impacting the lives of those living in the area. According to these stakeholders, the following five health issues and health factors have the most impact on Franklin County resulting in poor health outcomes for residents.

## Top five health issues

- Obesity
- Drug and alcohol abuse
- Physical activity and nutrition
- Cardiovascular diseases
- Mental health

## Top five health factors

- Poverty
- Transportation
- Employment
- Food security
- Access to behavioral care/mental health care

	• Access to benavioral care/mental health care
