Bangor Area
Hospice Volunteer Training
Fall 2022 Session

Hold a hand, listen to stories of a life well lived, provide respite for family caregivers supporting a loved one through the end-of-life. The need is great for people to join our team.

You’ll be giving back directly to your community by becoming a Northern Light Hospice Volunteer.

We’re looking for emotionally mature people who are reliable and hold a genuine desire to help their community. Are you kind, caring, enjoy making connections, healthy boundaries, and self-awareness?

There are many roles for volunteers through Northern Light Home Care & Hospice.

- A family and patient volunteer, making in-home visits
- Making bereavement calls to families of loved ones who have passed
- Donate your time through office work.

We’ll work with you to find what is best for you while aiming to meet the needs of our patients and families.

The Fall session begins Tuesday, September 6, from 6-8pm. This will primarily be an online training, though, we hope to hold the first and last class in-person. The session consists of six consecutive Tuesday classes.

Reach out to local Volunteer Coordinator, Sarah Cote for more information and to fill an application.
