

Northern Light Primary Care, Cutler Health Center at the University of Maine

After Hours Care

As part of the Northern Light Primary Care group, patients are cared for by our extended primary care network 24 hours a day, 7 days a week.

If you have medical needs after our clinic closes, feel free to call 207.581.4000 to talk with a nurse. The nurse will help determine if you need to seek care immediately, talk with an on-call provider, or if the clinic can call you back the next business day.

Taxi Service

Taxi service is provided by the University of Maine if you need a ride to another medical facility after hours or on the weekend. This is coordinated by calling the office number 207.581.4000 and talking with the triage nurse.
